Subject: follow-up on biomass policy

Hi folks,

Does the EPA have any additional comment on specific biomass policy initiatives we can expect to see soon, pursuant to discussions Administrator Pruitt held yesterday in New Hampshire? What is the timeline on the SAB process around a carbon-neutral policy, and how and when specifically does the EPA/USDA plan to change the forestry procurement regulations?

Let me know if you can send any other info – deadline is noon tomorrow.

Thanks so much,
Annie Ropeik
